ENGINEERING

PROCUREMENT

CONSTRUCTION

While everyone today is looking for profit oriented investment options in Turkey in upcoming projects related to Construction, Infrastructure and Land Development. We can get you on board for such projects which may turn your investments into profit.

We have professionals & partners involved with proven and demonstrated experience in the area of such projects to ensure that we do not compromise on quality of deliverables as expected by clients worldwide.

AGRICULTURE

Turkey has vast geography with a diverse climatic conditions which helps Turkey rank among the world's leading producers of agricultural products.

The country is also a significant producer and exporter of agricultural commodities on global markets and among largest agricultural producer, particularly a top producer and exporter of crops ranging from hazelnuts and chestnuts to apricots, cherries, figs, olives, quinces and tea to name a few.

Through our expertise and local partners, we are working on projects of acquiring agricultural lands and developing them for crops as mentioned formerly.

TRADING

Turkey is one of the largest trading economies in the world and companies here import and export a large quantity of products. This is why the country has a well-developed transportation network by land, water and air which play key role in supply chain.

The products ranging from special organic foods to the high quality entities used in construction covering hardware and marble etc. are to name a few we are currently dealing with.

HOSPITALITY RESTAURANTS & FRANCHISEE

Like many other countries Turkey has it's special place for it's unique cuisine which is popular worldwide.

Taking this heritage and tradition a step ahead with our local partners with chain of Authentic Turkish Restaurants and Franchisee around the globe.

EDUCATION

Turkey has emerged as a popular destination for higher studies attracting thousands of students every year from Europe, Asia and different parts of the world. Both public and private universities in Turkey confirm to the Bologna Agreement, which standardizes degree programs across Europe, and many Turkish universities are participants in the Erasmus+ program, which supports international student exchanges.

There are 10 Turkish universities featured in the QS World University Rankings® 2019, and 45 Turkish universities in the 2019 edition of the QS University Rankings: EECA, a ranking of the leading universities in Emerging Europe and Central Asia.

We as a Company for people are committed to social welfare of the community which can be addressed by providing the firm foundation strengthen with best possible education through the recognized world class institutes which is one of the main task in our objectives.

Moreover, there are different Technical Trainings courses we can offer along with English Language.

MANPOWER SUPPLY

We can supply Skilled and Unskilled Manpower whatever your project demands.

While it is a challenge for stake holders focusing on project to keep it on track, we obtain requirements from project owners and shortlist and recruit the right work force qualified & suitable for the job.

TOURISM

Istanbul has it all: over 2500 years of history, culture, and traditions, amazing landmarks and breathtaking views.

Istanbul has been the capital of four empires: the Roman Empire (330-395), the Byzantine Empire (395-1204), the Latin Empire (1204-1261), the Byzantine Empire (1261-1453) and the Ottoman Empire (1453-1922). Istanbul's history is very rich, and remains of each of these empires can still be witnessed.

These are some of the reasons to visit Istanbul.

We offer the complete tourism package to our guests which includes sightseeing tours to all tourist attractions in the city of Istanbul.

HEALTH TOURISM

Over the course of the last couple of decades, the large-scale investments by the public and private sector significantly improved the country's medical infrastructure.

The government recently launched a lot of state-of-the-art City Hospitals across the country, while private hospitals also invested heavily in their facilities, implementing services and capacities designed to cater patients from foreign countries.

In 2018, Turkey welcomed more than 850,000 medical tourists from 149 different countries, according to the Turkish Healthcare Travel Council.

Turkey is listed in the top 10 countries that takes the big number of medical tourists for its accredited hospitals with the latest technology, quality, affordable healthcare, thermal springs, natural hot spring water resources, and world renowned hospitality in the past few years. Over 2,000,000 medical tourists visit Turkey from all over

We offer a complete solution (including Visa Process) for your medical treatment in Turkey which includes transportation accommodation, transfer, interpreter for our patients as well as for their accompanying family members.

The activities include transportation from the hotel to the tourist attractions, our tour guides will accompany you in visiting the attractions to help you make the most of your visit. Our guests don't have to worry about food arrangements as dining in restaurants during the tour is also provided.
